CASE NO. 2001-00104

**MOTION OF LOUISVILLE GAS AND ELECTRIC COMPANY AND
KENTUCKY UTILITIES COMPANY TO ELIMINATE REPORTING
REQUIREMENTS**

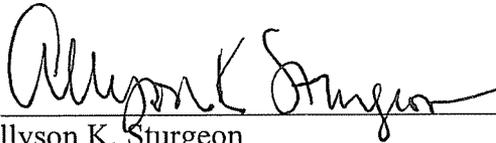

Pursuant to the May 15, 2000 and August 6, 2001 Orders of the Kentucky Public Service Commission ("Commission") in the above-captioned proceedings, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (hereinafter jointly the "Companies") have been required to annually file service quality monitoring reports which summarize System Average Interruption Duration Index and System Average Interruption Frequency Index at the substation level for the previous year and a comparison to the previous 5-year average. In addition, the Companies are required to file quarterly outage reports, including outages related to severe storms. These reports reflect the preceding 12 months of data and must be filed within 90 days of the end of each calendar quarter. They contain a comparison to the previous 5-year average.

Recently, the Commission issued an Order in Administrative Case No. 2006-00494¹ requiring all electric distribution companies within its jurisdiction to provide regular periodic reporting of reliability information. Specifically, the Commission now requires these utilities, including LG&E and KU, to file annual reports based upon the criteria and definitions set forth in the IEEE Standard, including the criteria for omitting events classified as major event days. These reports include the system average interruption frequency index, system average interruption duration index, and the customer average interruption duration index. In addition, the Commission requires each utility to provide a list of the ten worst performing circuits for the reporting year for each index value. Because LG&E and KU have repeatedly demonstrated that service quality has remained a priority with the Companies following the mergers and because reliability information is now required to be filed by all electric distribution companies in Kentucky, LG&E and KU respectfully request the Commission to eliminate the quarterly and annual reporting requirements for reliability and service quality measurements that are set forth in the Commission's Orders of May 15, 2000, and August 6, 2001, in the above-captioned proceedings.

WHEREFORE, Louisville Gas and Electric Company and Kentucky Utilities Company respectfully request the Commission to eliminate the quarterly and annual reporting requirements for reliability and service quality measurement imposed by the Commission's May 15, 2000, and August 6, 2001 Orders.

¹ *In the Matter of: An Investigation of the Reliability Measures of Kentucky's Jurisdictional Electric Distribution Utilities and Certain Reliability Maintenance Practices*, Administrative Case No. 2006-00494, Order of October 26, 2007.

Respectfully submitted,
